

## **Road Hazard**

(10/31/94 while hauling cattle to stalk fields close to  
Sedan, NM. A bicyclist got an unwelcome shower.)

**Tried to drive through Colorado  
Where bicycles own the road.  
They need an introduction,  
To meet a semi-load  
Of very well-watered cattle  
With bowels too loose to bloat.  
They'll share and move it on over  
Or wear a heavy raincoat.**
